- 1 Do you offer a green version of a good or service? What makes it green? What made you decide to green your business and/or product?
- 2 Do you offer it as a choice alongside other non-green products or is it all you offer?
- 3 Do you educate the customer about what makes this choice sustainable; encourage it? How?
- 4 Does the customer pay more for the "green" option?
- 5 Is there a greener version of your product? If so, what prohibits you from offering it?
- 6 Are there greener options/products that you plan on offering in the future?
