

Looking for More Energy Efficient Solutions?

Energy Efficiency Has Its Rewards!

With energy prices on the rise, more and more individuals and businesses are looking for energy-saving alternatives. It's easier than you think to enjoy the savings and comfort of an energy efficient home or business. When you replace your existing heating system with an innovative new energy efficient product you can:

- Improve your home's value
- Save money on fuel bills
- Help save the environment

And now with more financing options and potential tax incentives you can upgrade now and enjoy the rewards for many years to come!

*Annual percentage rate. 7.99%APR .Minimum loan amount \$5,000. Maximum loan amount \$25,000. For example \$5,000 at 7.99% APR for 72 months would require payments of \$87.64 per month. \$10 UCC filing fee at closing. Terms of 6 -10 years available for alternative energy units, and 6 years for fossil fuel units. Contact Biddeford Savings for complete details.
