People & business

The Cultures Helping Everyone's Environment at Riverton School Club, known by its CHEERS acronym, and ReVision Energy have won the 2013 Community and Business Eco-Excellence Awards, respectively, for the City of Portland. The awards are presented annually for contributions in preserving local ecology by ecomaine, a nonprofit municipally-owned single-sort recycling and waste-to-energy operation. Student Darcy Lally and teacher Olga "Teddy" Valencia accepted the award for Riverton School. Phil Coupe, the co-founder and managing partner of ReVision Energy, accepted the award on behalf of the company.
